

The Animal Song

Published by KidsWorldFun

The Animal Song

Lions roar, monkeys swing,
Elephants stomp while the birds all sing!
Fish swim deep, rabbits hop,
Kangaroos go bounce, bounce, pop!

Big ones, small ones, fast and slow,
So many animals—watch them go!
Furry, feathery, smooth, or tall,
We love animals, one and all!

Cows say "moo,"
ducks go "quack,"
Dogs go "woof" and
cats lay back!
Horses gallop,
snakes go glide,
Bears sleep cozy
deep inside!

Big ones, small
ones, fast and slow,
So many animals—
watch them go!
Furry, feathery,
smooth, or tall,

We love animals, one and all!

Some live in the jungle, some in the sea,
Some in the forest, some wild and free!
Each one special, each one neat,
All together, they make life sweet!

Big ones, small ones, fast and slow,
So many animals—watch them go!
Furry, feathery, smooth, or tall,
We love animals, one and all!

More about 'The Animal Song'

The Animal Song is a play rhyme that introduces children to the sounds that other animals make. Each line of the verse consists of an animal and therefore it is entertaining and educative. Children like mimicking the sounds, and this has its application in language growth, memory and creativity. It further informs on nature, diversity and animal respect. It is normal with parents and teachers even in the classroom, farms or even at the play ground in order to make the child involved. To make children understand what animals are, how they play a role in nature and improve vocabulary, it is helpful to sing The Animal Song. It is an interactive fun and it is trending among the young learners.
